Our Strategy and Analysis Department at the Tokyo, Japan office is looking immediately for a highly motivated

### **Reporting & Analysis Manager**

#### **Purpose of the Job:**

Contribute to the Business Unit's profitability and productivity improvement by supporting the decision-making of the leaders and the teams through providing analytical and fact-based information and recommendations

#### **Roles & Responsibilities:**

Responsible for the development and improvement of business intelligence reports and analytical support and deliver key insights on trends and data relationships to assist with business planning and decision support

1. Data management
  - Partnering with IT to design, implement, and improve the data availability and accuracy
  - Take ownership of SAP SD and sales-related systems (SIS, POS, CRM, etc.)
  - Develop and ensure reliable handling of master maintenance processes
  - Ensure data accuracy in the responsible areas
2. Gather Data
  - Gather and maintain a wide range of data-related business processes and reporting, coordinating with other departments (e.g. Merchandising, HR, Finance, Research, etc.)
  - Support related divisions/departments with data structures and processes to ensure consistency, security, and accessibility
3. Analyze Information
  - Partner with sales channels and GM to support business strategies, identify challenges, set action plans, etc.
  - Cross-examine different data and/or apply statistical methodologies to draw conclusions and provide meaningful commentary and/or recommendations to the sales leadership team
  - Develop and provide proposals on strategies and actions to partners
  - Partner with sales channels to analyze information considering channel strategies, action plans, etc.
4. Prepare reports and forecasts
  - Develop reporting that aligns with corporate strategy in a standardized format across sales channels
  - Provide call-to-action report sets in a timely manner to sales leaders
  - Provide ad-hoc reports to partners upon requests or upon needs identified by analysis

- Provide forecasts in a timely manner
- 5. Collaborate with Sales Channels, GM, and all other related departments
  - Arrange and facilitate weekly/monthly meetings
  - Propose business plans to the channel heads
  - Make recommendations for improvements based on thorough and multidimensional analysis of the business
  - Alert quickly if any sign of negative trends/outcomes

**Your ideal profile:**

- Minimum of 3 years of related experience in reporting and analysis management; financial or business analyst
- Team management experience and proven record of building a high-performance team
- Experience in working with cross-functional teams and strong stakeholder management
- Experience working with all levels in an organization
- Advanced proficiency in Microsoft Excel (Pivot, PowerPivot, DAX, etc.); Database knowledge
- Demonstrated understanding of the design and development of reporting tools and dashboards.
- Knowledge of statistics and experience using statistical packages for analyzing large datasets
- Logical thinking to be able to communicate with IT data architect
- Bachelor or Master's degree in business, finance, information systems, or a related field
- Fluent Japanese and operational level of business English, spoken and written
